DEPLOYMEDIA · DIGITAL AGENCY & SYSTEMS

High-Quality Websites & Apps, Paid Marketing & Smart Automations.

We build modern websites, run high-converting ad campaigns, and automate daily business tasks. We focus on clean craftsmanship, smooth user experience, and real business results.

SA

Specialized for Saudi Arabia (KSA) & the GCC Market

We build websites and online stores customized specifically for businesses in **Riyadh, Jeddah, Dammam, and the UAE**. Includes full integration with local payment gateways (**Mada, Apple Pay, Tabby, Tamara, STC Pay**), local courier shipping (SMSA, Aramex), VAT compliance, and flawless Arabic & English bilingual design.

SERVICE AREA 01

Website & Web Application Development

Clean, modern, and reliable platforms crafted properly to look stunning on mobile phones, tablets, and computers.

🌐 WordPress & Elementor Development

Easy to Manage

Custom, branded WordPress websites configured properly so your team can easily update copy, replace images, and create new pages using simple drag-and-drop tools, with zero coding required.

- ✓ Custom design matching your exact brand identity
- ✓ Mobile-first layout that looks perfect on every phone
- ✓ Easy-to-use visual dashboard for your marketing team
- ✓ Contact forms connected directly to your email and phone

⚡ Next.js & React Web Applications

World-Class Tech

For businesses wanting top-tier modern technology. Next.js is the exact framework used by industry leaders like Netflix, Uber, Nike, and TikTok for their high-traffic platforms.

⭐ What Makes Next.js So Special for Your Business?

Ordinary websites reload on every click. **Next.js makes your site feel like a mobile app:** page transitions are instant, screens never flicker, and the site never gets stuck or heavy over time.

- ✦ **Instant Page Opening:** Zero loading delay for visitors.
- ✦ **Google SEO Favorite:** Clean code ranks higher in search results.
- ✦ **Bank-Grade Security:** No fragile plugins that can crash.
- ✦ **Future-Proof:** Modern standards that stay fast for years.

🛍️ E-Commerce Online Stores (Shopify, WooCommerce, Zid)

Built for Sales

Complete online shopping stores optimized for a frictionless customer buying experience. Customers can browse products easily, pay with local cards, and receive automatic order tracking.

- ✓ Saudi Arabia payments: Mada, Tabby, Tamara & Apple Pay
- ✓ Simple, clean checkout page with zero confusing steps

SERVICE AREA 02

Paid Advertising & Digital Marketing

Targeted advertising campaigns designed to generate paying customers and qualified inquiries, not empty clicks.

🔍 Google Ads (Search & Shopping)

When prospective clients search on Google for your exact services or products, your business appears at the top. You only pay when interested buyers click.

📱 Meta Ads (Instagram & Facebook)

Eye-catching video and image advertisements shown directly to your ideal customer profile based on their interests, location, and buying behaviors.

💼 LinkedIn B2B Advertising

Target company owners, CEOs, directors, and purchasing managers directly. Ideal for corporate contracts, high-ticket services, and wholesale business.

🎯 Focused Landing Pages

Dedicated single-page sales funnels created specifically for your ad campaigns, guiding incoming traffic directly toward making a call or submitting an inquiry.

SERVICE AREA 03

Smart Automations & Accurate Tracking

Eliminating manual repetitive tasks so your team responds instantly and never loses an interested customer.

🤖 Smart Lead & WhatsApp Automations

Zero Missed Leads

The moment a customer submits a form on your website, our system sends a WhatsApp or phone notification directly to your salesperson, while sending an immediate confirmation to the customer. No delays, no spreadsheets.

- ✓ Instant WhatsApp/Slack alert to your sales reps
- ✓ Automatic lead capture into Google Sheets, Excel, or CRM
- ✓ Automated reminder messages to prevent missed calls
- ✓ Saves your staff hours of manual data entry every week

📊 Accurate Sales Tracking & Reporting

Clear Insights

Complete conversion tracking setup showing exactly which ad generated which phone call, WhatsApp chat, or online order. Unprofitable ads are stopped, protecting your budget.

- ✓ Track every phone call, WhatsApp click, and form accurately
- ✓ Clear weekly reports showing results in straightforward language
- ✓ No wasted ad budget on underperforming campaigns
- ✓ Full setup of Google Analytics and Meta conversion tracking
